For some time there has been quite a war going on between the pimps and their girls, on account of a desire on the part of some of the girls to rebel against the slavery in which they have lived. This quarrel came very near ending in the death of one of the girls named Cunningham Sunday. The girls

for several weeks past, and on Saturday evening the fellow sent word by another girl that he would not have anything further to do with her. The girl took it very hard, and when she got up Sunday morning she visited a drug store on Main street and purchased eight grains of morphine. She went back to her miserable abode and

took the drug and would have died had it not been for one of the girls in the neighborhood, who heard her breathing hard and went into the room and found her in a dying condition. She sent for medical aid and two doctors worked with her until late Sunday night. Yesterday she was out of danger and says she will not make another mistake.

Dillon's story was discussed by his brother and other officers about the station last night, and was generally credited. It is a strange case, and will probably be investigated. Dillon, however, said that he did not think he could identify the men, as it was done so quick.

MISTHER BRADY.

A RATHER FRIGID DAY FOR HIM IN COURT.

The Damaging and Utter Failure of His Attempt to Blacken Mrs. Ackerman—Brady's Witnesses Going Back on Him.

The reopening of the Brady burglary case was put off by press of police work until nearly 11 o'clock yesterday morning. Just previous to the case being called Mrs. Hester, accompanied by Mrs. Ackerman and their counsel, Walter VanDyke, entered the courtroom and were immediately conducted to the ante-room to await their call to the stand. Mrs. Ackerman appeared to be really ill, her face being somewhat flushed and her head being continually bathed with eau de cologne from her handkerchief.

For the first time since the commencement of his examinations Brady conferred very earnestly with his counsel and appeared to make suggestions to them during the questioning of the witnesses.

As G. Wiley Wells was absent his place was taken by Walter VanDyke, whose particular business was to watch over the interests of Mrs. Hester and Ackerman, and who did very little toward conducting the examination of any witnesses but those who testified in relation to the position taken by these ladies in the identification of the defendant and the effort to break down their positive testimony.

Counsel having announced themselves ready to go on the first witness asked for was LEWIS S. FOSTER (recalled), who testified: After we (Brady and myself) left the police station, at 8:30, we went down to Aliso street to Marteen's store, and there we talked with Marteen awhile, and then we waited around there. Soon we saw two other men come down the street and go into Marteen's. One of them was a stout man, dressed in blue clothes, and the other a smaller man, dressed in a gray suit. We watched them for a little time, and then at about 10 minutes to 11 we wanted to go to the express office, and Brady showed me where the office was and left me there. I have done nothing to break down their positive testimony.

cross-examination of the witness, but the objection was overruled and the witness continued:

I have met Mrs. McCurdy several times since we were introduced. I don't remember what we were talking to Mrs. Hester about. I have been into the Souten block many times with Officer Alfond and other policemen. Alfond and I were suspended on the same day Brady was arrested. We were introduced to Mrs. McCurdy on the following day.

C. H. ALFOND was then sworn, and testified: I am 30 years of age. At present I have no occupation. On November 17th I was a police officer, and was suspended either on that day or the day of December 1st. I was the Chief of Police office which would show when we were suspended. I know Mrs. Hester, and have known her for about two months. (Mrs. Ackerman again brought into court.) I was introduced to that lady as Mrs. McCurdy on the day I was suspended. I know a man in this city by the name of McCurdy. I know Mr. Brady. I have had a conversation with Mrs. Hester in relation to Mr. Brady.

Mr. Alfond: What did she say?

Mr. Dunlap: We object, on the grounds of incompetency.

Mr. Dunlap: Here introduced himself as one of the counsel to watch the interests of Mrs. Hester and Mrs. Ackerman, and supported the objection.

Mr. Alfond: I am always glad to see an abundance of counsel, as it means an abundance of coin, and I am always pleased to see that Mrs. Hester has been on the stand and has attempted to identify the defendant, which was all a sham. Now, we intend to introduce testimony to prove that Mrs. Hester knew Brady at the time, and had known him for some time previous to the alleged burglary. That is why we introduce this testimony, and not for the purpose of impeachment.

Mr. Alfond: You can make nothing else but impeachment of such testimony, and we object to anything of the kind at present.

Mr. Alfond: We introduce this testimony as responsive evidence and not for impeachment.

The Court here called attention to the liberal manner in which it had listened to the argument of counsel, and, refusing to hear more, sustained the objection.

The witness continued: Of my own knowledge I know that Mrs. Hester knew Brady previous to the alleged burglary.

Cross-examined: I know she knew him, because she said in the presence of Officer Moore and myself that she had seen him before.

More skirmishing between the counsel as to the knowledge of the witness to the fact of Mrs. Hester's acquaintance with Brady, in which Mr. Alfond stated that Mrs. Hester was a horrible liar, and which the Court settled by ruling that the witness was to be believed in her own testimony.

The witness then continued: I know she knew Brady because she told me so. I was introduced to Mrs. McCurdy on the same day that I was suspended and Brady was arrested. It was at the door of Mrs. Hester's bedroom. There were no other persons present but those I have mentioned. There was some conversation in relation to this burglary business, and then we were introduced to Mrs. McCurdy. I went to see if Moore was present, and as he had gone out, I followed him up and we came back together. Mrs. Ackerman joined in the conversation. She remained there but a minute and then left. Moore and myself then went into Mrs. Hester's parlor and remained there some little time talking.

CHARLES M'CORMICK recalled: This is the witness who testified that he kept the Flag Cottage and knew Mrs. Ackerman under another name. When he took the stand Mr. Alfond asked that Mrs. Ackerman be recalled to the stand and confronted by the witness. In the meantime Mr. Alfond took the witness to the ante-room and showed him Mrs. Ackerman.

The witness: I saw two ladies in the ante-room. Both ladies had veils on and I could not recognize them.

Mr. Alfond: We would like to have Mrs. Ackerman brought into court without her veil.

Mr. Dunlap: We would ask that both Mrs. Ackerman and Mrs. Hester be allowed to sit in the room together while this witness testifies.

Mr. Alfond: No, sir; you demanded the enforcement of the rule, and we insist it shall now be observed.

Mr. Dunlap: They only ask to have Mrs. Ackerman brought into court to identify her, therefore it can certainly do no harm to let Mrs. Hester hear this testimony.

Mr. Alfond: We have clung to the law, and we only ask to keep this woman out in accordance with the rule invoked by the counsel on the other side.

The ladies were then brought into court and the witness, on being asked to look at them, did so and said: I cannot recognize either one of them as ever having been out to my place. I thought I did at first, but I had a good look at them, and do not believe either has been out to my place.

The witness was very positive in his assertions, and Mrs. Hester's face fell as the witness was told to step down without being cross-examined.

MRS. HESTER was here called for by the defense, to ask her a few questions tending toward the impeachment of her previous testimony.

Mr. Stephens: I will ask you, Mrs. Hester, in the early part of November, you did not state to officers Alfond and Moore that if Brady did not keep the detective of his away from the Souten block (meaning Mr. Brady), you would arrest him?

Mr. Dunlap: We object, as it is not stated that Mrs. Hester knew the defendant Brady, but that he was a detective, and had been into the Souten block. Such questions will not draw out any fact tending to prove that the witness knew Brady previous to the alleged burglary. By this I mean that if this question is asked it will necessitate the recall of nearly every witness in the case. Mr. Dunlap here cited authorities in support of the proposition.

Mr. Alfond followed with a long argument in favor of the proposition, and also cited several authorities in support of his position, and stated that on the same proposition he had received a favorable decision from the courts on previous occasions.

The witness then said: No, sir; I did not say so. I do not remember the recall to Brady on or about the 30th of October last.

E. R. ALFOND was then recalled and was asked by Mr. Stephens: Did you have a conversation with Mrs. Hester on or about November 2d or 3d in which she said that if Brady did not keep his detective away from the Souten block she would arrest him?

The witness: Yes, sir.

Mr. Alfond: You have no business to answer any question unless we have time to make an objection. That question is not answered.

Objection overruled, and the Court stated that the answer must be as given by the witness.

Witness continued: I have no feeling against Mrs. Hester, not a particle. I have not visited her house since that occurrence, as I was there previous to that time in my capacity as a police officer, and have had no business with her.

The Court then declared a recess till 11 o'clock this morning.

Incorporated.

Fronts on Stevenson avenue, Adelaide, Albertine and Euclid streets. The location is high and commanding. The air is pure and healthy, and the view the finest to be found in the city, exhibiting as it does a magnificent panoramic view of the Santa Ana valley, the ocean at San Pedro and Santa Monica, the nearest of this tract to the center of the city, and the rapidly with which it can be reached by the Santa Fe depot, renders it most desirable for residences. Street cars will probably pass this property in about six months.

CITY COUNCIL.

HAT BODY'S INTERESTING SESSION YESTERDAY.

More Police-men to Put on Stars Within Two Hours of Their Arrival in Los Angeles—Routine Work.

The City Council met yesterday morning at 10 o'clock in regular session, in the Chamber, with President Humphreys in the chair and the following members present: Barrett, Bosbyshell, Collins, Cuddy, Gibbs, Hanley, Johnson, Matthews, Lovell, Sinsbaugh and Teed. The minutes of the previous meeting were read and approved.

The following resolution was adopted: "Resolved, that on and after January 1, 1888, no man shall be employed as a member of the police force of the City of Los Angeles who is not a citizen of the United States and shall not have resided in the City of Los Angeles for at least two years."

The following resolution was adopted, and a motion, referred to the Finance Committee: "Resolved, that all employees and officers of the City of Los Angeles, appointed by the City Council (as its committee), shall only hold their term of office at the pleasure of the Council."

The standing committees for the ensuing year were then announced by President Humphreys, as follows: Board of Public Works: Barrett, Cohn and Sinsbaugh. Finance: Cohn, Bosbyshell and Johnson. Police: Bosbyshell, Matthews and Gibbs. Streets: Collins, Cuddy and Lovell. Fire: Cuddy, Bosbyshell and Gibbs. Zoning: Teed, Collins and Hiller. Lands: Hanley, Teed and Johnson. Parks: Teed, Sinsbaugh and Collins. Supplies: Bosbyshell, Barrett and Lovell. Water: Sinsbaugh, Cuddy, Teed, Hanley and Gibbs. Construction of Bridges: Chandler, Hanley and Gibbs. Gas: Cuddy, Chandler and Matthews. Special Building City Hall: Teed, Bosbyshell, Cuddy, Sinsbaugh and Hiller. Board of Health: The Mayor, President of the Council, Hanley, Collins and Gibbs.

The annual message of the Mayor was read by His Honor, who, on motion, was received and ordered engrossed upon the minutes, and referred to the various committees.

The report of the special committee on Sewers was read and referred to the Committee on Sewers.

A communication from the Mayor, in regard to a bridge, and also a communication from the City Engineer, were referred to the Bridge Committee.

The report of the Auditor, showing the balances in the various funds, was read and referred to the Finance Committee.

The Chief of Police reported the collection of \$397 on delinquent taxes for the month of November.

The City Tax Collector asked for \$15 days' leave of absence from the city.

The Superintendent of Streets reported his expenditure for the week, which was referred to the Finance Committee.

A communication was read from the City Engineer, stating that the stone-block pavement on Main street was not being laid in accordance with the contract, and asking that the contractor be compelled to lay the pavement in accordance with his contract.

City-Attorney Daly asked for the transfer of certain moneys to the Los Angeles Widening and Improvement Fund. So ordered.

The City Attorney also asked for the transfer of \$500 from the Ninth-street fund to the City Clerk, for the use of certain residents on that street. So ordered.

Mayor Workman addressed the Council, advocating a vote of thanks to Mr. Daly for his efforts in securing the opening of Los Angeles street, which, on motion of Mr. Sinsbaugh, was extended him.

A. S. Averill tendered his resignation as a member of the School Board, to take effect on and after January 1st, and recommending W. S. Earl as his successor. Resignation accepted.

The report of the Finance Committee was read, and the various recommendations adopted.

A petition was received from George L. Stern, asking for the franchise for the construction of an electric plant for furnishing light and power. Referred to the Committee on Gas.

The various petitions were referred to the appropriate committees without reading.

Mr. Collins gave notice that at the next meeting he would move the repeal of the so-called hitching ordinance.

On motion of Dr. Sinsbaugh, the members then drew for choice of seats.

On motion, the Committee on Supplies was instructed to provide desks for the Mayor, City Attorney and City Surveyor in the Council Chamber.

The Council then proceeded to ballot for City Clerk.

Freeman G. Teed, the present incumbent, was placed in nomination by Dr. Sinsbaugh, and the President, on motion, was instructed to cast the ballot of the Council for him.

On motion, the Council proceeded to elect a City Surveyor.

W. T. Lambie was placed in nomination, and the President instructed to cast the ballots of the Council for him.

Mr. Cuddy moved that Mr. Lambie at once take his position in the office of the City Surveyor, which prevailed, to familiarize himself with the duties of the office. Mr. Eaton stated that he would take pleasure in initiating his successor.

RED PEPPER.

A Highly-Seasoned Dish at the City Clerk's Office.

There was quite a little battle of high-sounding words at the City Clerk's office yesterday afternoon about 4 o'clock, and for a few minutes it looked as if there would be blood on the moon. E. Pepper, the attorney, who has taken a lively interest in the opening of Seventh street, walked into the office and asked Clerk Teed if anything had been done. Mr. Teed, in his usual gentlemanly manner, replied that nothing of any importance had taken place. At this the lawyer flew all to pieces, and grabbed a heavy ruler, that was peacefully reposing on a desk. Cuss words flew back and forth at a very lively rate, when Mr. Teed jerked a heavy cane from the hand of a gentleman, who happened to be standing by. The two would-be fighters glared at each other for a few seconds, when Mr. Teed went into the police office and asked for an officer. The officer went into the Clerk's office and gently, but firmly, invited Mr. Pepper to take a walk, which he did.

Miscellaneous.

TO ART LOVERS.

I have received a commission twelve exquisite oil paintings from the brush of the eminent German marine and landscape painter, Richard. They will be on exhibition for two weeks only at Exchange Hall, 130 West First street, and are for sale at the prices designed.

Richard's reputation is well known to all art connoisseurs. The Car of Bunsen, the King of Denmark and the Princess of Wales are his patrons. His paintings are among the choicest treasures in the royal and aristocratic galleries of Europe.

In warmth of color, depth of perspective, strength of tone, perfection of detail and technique he is without a peer among modern painters.

Richard came to the United States upon the invitation of the City of Los Angeles to paint Niagara Falls, for which painting he received \$14,000. He spent last year sketching in California and Virginia.

To the cultured people of Los Angeles who recognize true art when they see it, I offer for sale the following creations from his brush. The prices are agreed:

No. 1—Flood, Washington Territory.....\$1000
No. 2—Niagara Falls, seen from near the falls.....800
No. 3—Niagara Falls, seen from near the falls.....800
No. 4—Scene near Glenwood, Santa Cruz Mountains, California.....250
No. 5—Mountains in Virginia, near Peaks of Otter.....250
No. 6—Austin Creek, Indiana.....250
No. 7—View near Spring Lake, Ohio.....250
No. 8—View near Spring Lake, Ohio.....250
No. 9—Niagara Rapids, seen from third Sister's Falls, Canada in distance.....150
No. 10—House on the marsh, southern part of Oakland.....125
No. 11—Winter scene, Goat Island, Niagara.....100
No. 12—Thorp in Scania, Manor House from thirteenth century.....80

Business and Residence Lots!

To meet the urgent demands of business, traffic and habitation.

Wolfskill avenue is 100 feet wide, and four of its principal avenues are 80 feet wide.

A strip of land—300x1900 feet in size—fronting on Alameda street, between Fourth and Sixth streets, containing 13 acres, was donated by the owners to the Southern Pacific Railroad Company, who are now building upon said land its general passenger depot, similar in design but more elaborate and expensive than the Arcade depot at Sacramento. The ground-plans and elevation of this depot, one of the finest in the world, are now on view at our office. The building will be 507 4-12 feet long and 141 feet wide; the main approach and entrance facing Fifth street and Wolfskill avenue, the trains entering the depot from Alameda side. The building will be constructed of brick, stone, iron, glass, and fittings in natural wood, and will be one of the finest structures of the kind in America, being completed with every convenience for the traveling public.

Every street leads from the most valuable part of the city, and the tract itself is within four short blocks of the new postoffice site and the very heart of Los Angeles. We have never before had the pleasure of offering so fine a piece of property to the public in the whole twenty years of our real estate experience, and we personally recommend this tract to all of our friends and acquaintances, feeling sure they will double their money in 6 months.

The Prohibitionists Issue Their Call.

A New York Girl Sent to Jail for Killing Canary-Birds.

Capture of Vore, the Noted Colorado Desperado.

Attempts to Blow Up the Quinine of a Canadian Who Upheld the Dominion Law—A Death and Have Caused by a Cyclone.

By Telegram to The Times. CHICAGO, Dec. 19.—[By the Associated Press.] The National Prohibition Committee has issued a call for the national convention at Indianapolis June 6, 1888. The call says:

"All citizens who believe that the traffic in intoxicating drink is a national disgrace and a national scourge, that it is a source of wealth-producing power, robs labor, destroys capital, breeds lawlessness and fosters anarchy, seeks to, and already is, an alarming extent, dominates in municipal, State and national governments, that it threatens the safety of our homes and ought forever to be prohibited; who believe that to abolish the saloon will, in a great measure, abolish poverty, assist in solving the labor question, purify politics and add to the solace of the people; who believe that this desirable reform needs for its consummation the respectable agency of a political party, clearly committed thereto as a matter of principle; who favor general and progressive systems of popular education; who would amend our election laws to secure greater purity of the ballot; who stand for a free ballot and a fair count for the white man North and the black man South; who favor the elevation of American laborers who would foster our agricultural interests; who believe that the ballot in the hands of women will be the death knell to the liquor trade; in short all citizens who are agreed upon the wisdom and necessity of a separate political action in order to secure the overthrow of the rum power, are requested to unite in sending express letters to the convention."

A CYCLONE.

It Causes Havoc and Death in Indian Territory.

LITTLE ROCK (Ark.), Dec. 19.—[By the Associated Press.] A cyclone from Polk county reports that a destructive cyclone visited Armstrong Academy, L. T. Ft. Washita and Green on Saturday morning, causing great destruction to property and loss of life. A terrific howling sound was heard, and a heavy black cloud, funnel-shaped, was seen in the distance, rapidly approaching. When about a mile north of the fort it struck the ground, and from this point south for miles the work of ruin continued. The cyclone traveled about a mile in an instant from the time it struck the earth till the houses in the fort were in ruins. Light houses were picked up and blown into kindling-wood. Armstrong's Academy was not greatly injured, but the ranches in the immediate neighborhood suffered greatly. At Green, a little hamlet six miles south of Armstrong, the damage was very heavy and many persons were injured. Horses and cattle within the range of the storm were killed or injured.

The damage at this time cannot be estimated. The full extent of the storm is unknown. Five deaths are reported.

AN OUTLAW CAUGHT.

Vore, the Desperado, Smoked Out and Captured.

DENVER, Dec. 19.—[By the Associated Press.] A telegram from Deer Trail, Colo., announces that the outlaw, Vore, who recently killed Officer Holt, was captured and captured last Friday, rode to a sheep ranch, where he demurred, which was given him. A number of ranchmen, learning of Vore's whereabouts, surrounded the dugout. Vore's horse remained standing near the door, ready for instant use. Early Saturday a man with a hat and coat, and a rifle, rode from the door toward the horse, and the men who were behind the corral fired and killed him. The man whose horse had been killed was the man whom Vore had forced to put on his clothes and run toward the horse, for the purpose of learning whether or not he was any danger. The Sheriff of Denver has sent a special train bearing half a dozen officers to Deer Trail, with instructions to take Vore dead or alive.

A Dear Trail special says the Sheriff's posse last night succeeded in setting fire to the dugout in which Vore was barricaded. The desperado came out and surrendered, and will be brought to Denver tonight.

A CRUEL MAIDEN.

A New York Girl Sent to Jail for Killing Birds.

NEW YORK, Dec. 19.—[By the Associated Press.] Miss Inez Van Zandt was sentenced to one month in the penitentiary, in the Court of Special Sessions, today, for killing two canary birds. The complaint was made by Miss Fanny Slickles, and was prosecuted by the Society for the Prevention of Cruelty to Animals. Miss Van Zandt boarded in the same house with Miss Slickles, the owner of the birds, and having quarreled with her, took revenge by cutting her enemy's pets in two with a carving-knife.

A DEADLY BOMB.

Narrow Escape of a Canadian Temperance Man's Home.

STANLEY (Quebec), Dec. 19.—[By the Associated Press.] About 1 o'clock this morning a bomb, to which a lighted fuse was attached, was thrown through a window in Dr. Canfield's residence. Mrs. Canfield sprang out of bed and succeeded in detaching the fuse. The bomb contained enough of a plant blowing powder to completely demolish the house and kill all the occupants. Dr. Canfield's father, who is a sailor, has been engaged lately in serving processes for violations of the Canada temperance law, and had been threatened with violence if he did not desist.

Petroleum.

New York, Dec. 19.—Petroleum opened 77½c, and after the first half hour was affected by inside manipulation and declined to 75½c. After noon, however, it became strong and excited, and advanced rapidly on enormous buying, and a tier gaining 1½c, before 2 o'clock there was a slight reaction, after which prices advanced ½c more, and closed strong at 81½c. Opening, 77½c; highest, 81½c; lowest, 75½c; closing, 81½c. Sales, 4,352,000 barrels.

Will Not Advance Rates.

CHICAGO, Dec. 19.—It is probable that the 20 advance in the round trip excursion rates between the Missouri River and the Pacific Coast, recently decided upon by the transcontinental lines, will not be put into effect. The Chicago roads and Atchison, it is learned today, oppose the move.

The Wood Local Constitutional. ST. LOUIS, Dec. 19.—The Supreme Court this morning declared what is known as the Wood Local Option Law to be constitutional. The effect of this will be to give the temperance movement in the State an additional impetus.

The Judge and the Soldier. CRESCENT CITY, Dec. 19.—Several days an injunction was served on Sergt. L.

forest in command of the United States troops stationed at the mouth of the Klamath river, to prohibit him from tearing down the house of a settler, John McKenna, located on an island in the river. The injunction was disobeyed and the property destroyed. Judge Murphy, who issued the injunction, has issued a warrant for the arrest of the soldier for contempt of court, and the Sheriff has gone to arrest him.

A Widow's Protest. PITTSBURGH, Dec. 19.—Mrs. Obadiah Haymaker, widow of the man for whose death Milton Weston, the Chicago millionaire, is suffering imprisonment, has written another letter to the Board of Pardons, protesting against Weston's imprisonment. The application for a rehearing of the case will be argued at Harrisburg tomorrow.

Offered to Pay Half. PHILADELPHIA, Dec. 19.—At a meeting of the creditors of Seale, Vanneman & Co., jobbers in notions and white goods, today, a statement was made showing the assets to be \$179,000, and the liabilities \$220,000. An offer of 50 cents on the dollar was made, and a committee appointed to examine into the firm's affairs.

Finery Harmful to Children.

[New Orleans Times-Democrat.] Children are overladen with finery, destroying utterly their childish charm and grace, for they are either pertly conscious of "my best clothes," or they are rendered miserable by the necessity of so comporting themselves as not to rumple, tear or soil their fripperies—this being, with some mothers, the unpardonable sin.

JEM AND JAKE.

Smith and Kilrain Meet in France.

One Hundred and Six Hard Rounds Fought.

The Contest Finally Brought to an End by Darkness.

Smith, Although Apparently Weakened During the Early Part of the Struggle, Has the Best of It Toward the Close—Both Men Have Escaped.

By Telegram to The Times. LONDON, Dec. 19.—[By Cable and the Associated Press.] The international contest between Jake Kilrain of Baltimore and Jem Smith of England, for the diamond belt and championship of the world, took place on the island of St. Pierre, in the River Seine, France, today, in the presence of about 100 persons.

Kilrain, with his trainer and a few friends, crossed the channel by a Dover boat. Smith, with his principal supporter and Jim Howes and trainer, crossed on Thursday. The sea, on that day, was exceedingly rough, and they suffered severely from sea-sickness and did not reach Rouen until Friday. On Saturday both men met and shook hands. It was arranged that the steamer should be ready ofposite today to convey the party to grounds selected for the fight.

The party left Paris by the Rouen train, and got off at the village of Borchers, whence they trauped across the marshes and reached the river, where there was a steam launch lying alongside the bank. The party included Lord De Clifford, the Marquis of Queensbury, Sir Hugh Drummond, Hon. Mr. Sandys and Capt. Lee Harbord, who took all hands on board and steamed to the scene selected for the fight. An excellent rig was pitched. Kilrain fought at 180 pounds, Smith at 180 pounds. Smith's castor was thrown into the ring, and immediately followed by Kilrain's beaver.

The fight commenced at 2:10 p.m. It was a lively and energetic battle for the first three rounds, quick give and take with close sparring. In the fourth Kilrain got in, giving Smith a smash on the ear which appeared to stun him. Wrestling formed a feature in a number of succeeding rounds. Here Smith was noughty, the American, when he reached the river, where there was a steam launch lying alongside the bank. The party included Lord De Clifford, the Marquis of Queensbury, Sir Hugh Drummond, Hon. Mr. Sandys and Capt. Lee Harbord, who took all hands on board and steamed to the scene selected for the fight. Here Smith was noughty, the American, when he reached the river, where there was a steam launch lying alongside the bank. The party included Lord De Clifford, the Marquis of Queensbury, Sir Hugh Drummond, Hon. Mr. Sandys and Capt. Lee Harbord, who took all hands on board and steamed to the scene selected for the fight. An excellent rig was pitched. Kilrain fought at 180 pounds, Smith at 180 pounds. Smith's castor was thrown into the ring, and immediately followed by Kilrain's beaver.

The fight commenced at 2:10 p.m. It was a lively and energetic battle for the first three rounds, quick give and take with close sparring. Synthetic, Capillaries, Cerebral—Houses for the Homeless.
Forty thousand acres cheap, good land, with perfect title, good artesian, mountain and well water, sufficient for all mechanical power or irrigation needed. Good markets, good railroads, good climate, and as healthy a country as the world affords, are all to be had in the Santa Monica Valley, Los Angeles county. Raisins, grapes and deciduous fruits, alfalfa, stock and grass land. Forty thousand acres for sale at \$500 to \$250 per acre. Address: H. H. HARRIS, successors to Cox & Co., 122 West First street.

A Credit to Los Angeles County.

The Hotel Arcadia at Santa Monica, which is only fifteen miles from Los Angeles, fifty minutes ride by Southern Pacific Railroad, is situated on the border of the Pacific Ocean, and is the best conducted and appointed hotel in Southern California, and as a winter resort has no equal. We mention a few of the advantages to give our readers an idea of the comfort to be enjoyed: Warm days and nights, elevator, gas, electric bells, hot salt water baths, ladies' and gentlemen's billiard parlors, open sea baths, every room an outside room, six hundred feet of porch, also sun porches, grand garden on land side, terraces and lawn on ocean side, all public rooms overlook the great Pacific. The table and service is the feature of the place.

Hay and grain lands to lease on shares for cropping crop.

Apply to F. C. Garbutt, 41 North Spring street.

Something New.

A spot in the San Gabriel Valley where intrinsic values prevail—Glendora, the king of the orange belt.

A Card.

We invite all who are seeking good, safe land investments to call on us for information. We are offering lands that are equal to any in Southern California at prices to encourage all to invest. We ask less than half the price of other lands of equal value. For actual results, no other tract can offer equal inducement. Call on us at our office, 19 West First street, Los Angeles.

For finest photographs go to Strelow, Reinke & Co., 147 S. Spring st., the only first-class round trip railway.

Measrs. M. A. Newmark & Co. have accepted the agency and are now introducing California's most celebrated "pack" of canned fruits—the Coleman Flag Brand.

Eastern visitors who would appreciate California's choicest fruits should use the Coleman Flag Brand only.

BUSINESS.

OFFICE OF THE TREASURER.
LOS ANGELES, Monday, Dec. 19.
The holiday season is making almost every branch of trade very brisk, and the activity is probably greater this year than at any previous period in the history of the city.

The Country Produce market is generally fairly well supplied, and prices are firm at former quotations. Butter is in somewhat better supply, and slightly lower. The rest of the list is unchanged from last week.

The Bradstreet Mercantile Agency reports 8 failures in the Pacific Coast States and Territories for the week ending Friday, as compared with 12 for the previous week, and 10 for the corresponding week of 1886. The failures for the past week are divided among the trades as follows: Two general stores, 3 saloons, 1 grocer, 1 boarding, 1 dairy and 1 varieties.

CITY SEWERS.

THE COUNCIL'S COMMITTEE AT LAST REPORTS

The Plan of Sewerage Which It Is Proposed to Adopt for This Multiplying Metropolis—The Report in Full.

The following is the report in full of the special commission appointed by Mayor Workman to investigate the proposed sewer system, which was read at the meeting of the Council yesterday morning, and referred to the Committee on Sewers. It is very full and comprehensive, covering every detail and will prove interesting to taxpayers and citizens generally.

THE REPORT.

To the Honorable Mayor and Council of the City of Los Angeles—GENTLEMEN: At your request we have made an examination of the sewer system of the city of Los Angeles, as laid down on the accompanying map, to which reference is made. We commenced the work on November 1, 1897. The magnitude of the undertaking, requiring the examination of every location on the grounds, and, in addition, the necessity of re-examining, with a view to improve location or diminish cost. We have gone into the proper size, gradient and velocity of flow, also the quantities and cost of every item. We submit the following as our report. We are further furnished with the following data by the City Engineer, Fred Eaton: First, a contour map of the city of Los Angeles, drawn to a scale of 600 feet to one inch, on which is delineated the projected lines of intercepting sewers and branches. Second, profiles of the intercepting sewers and branches, showing grades of sewers, and the configuration of the surface of the ground. Our report is based on the data, and we assume that it is correct. We then took up each line in detail, and calculated the dimensions and capacities of the lines proposed, also their probable cost of construction. By reference to the contour map, it will be seen that the greatest inclination is toward the south and west. The fall is comparatively uniform and renders the collection of the city sewage at the southwest corner of the city a simple proposition. This being accomplished, the ultimate disposal of the matter is the next proposition. If it should be decided to locate the sewer, then a point on the ocean beach at Balboa offers the natural outlet, and is the line of cheapest construction. But this we would not recommend, but would advise a more expensive construction for the purpose of keeping the outlet at as high an elevation as possible consistent with the proper gradient, so that the city may be in a position at any time to supply irrigation from this source to her own sewage farms, or to other who will doubtless seek means of irrigation and improving thousands of acres of land that is now comparatively worthless. This matter of disposal we treat as follows: The city authorities should look beyond the mere disposal of the sewage matter in the cheapest and shortest way to the ocean. You have a direct interest in the wealth of the country between your city and the ocean. Every dollar of wealth added to that country adds to your wealth in some degree, and the application of irrigation water, enriched by the sewage of a large city, to the thousands of acres of land, and west means an addition of wealth to the lands which in ordinary seasons produce but indifferent crops. Any system of sewerage for this city is defective which does not for one of its principal objects the easy disposal of sewage for irrigation, where and when needed. The wealth to the soil through such disposal is something wonderful, and only understood by those who have investigated the profits from a sewage farm. In a country where irrigation is a necessity. We shall not here attempt to prove the sanitary reasons for or against the disposal of sewage by being brought in contact with the soil, assuming that every person nowadays is satisfied on that point. From an examination of the country, which the present sewerage is disposed, we are more than ever convinced that there is no necessary for any well-managed sewerage, but in any manner a nuisance to anyone in the vicinity, and statistics amply prove that the per cent. of sickness on the farm is no greater than at points far removed.

There can be no city more favorably situated for the cheap and profitable disposal of her sewage matter. First, a country stretching to the south and west which requires irrigation; second, an abundance of water for the proper disposal of the sewage and furnishing the cheap vehicle of transporting the same. We have made a thorough examination of the adjacent country likely to require sewage, and would recommend that in the construction of the sewers ample provision be made for the delivery of sewage into the country on the east side of the river, in the south boundary; secondly, at a point on San Pedro street, where the sewage is now delivered; and, thirdly, at a point in the outfall sewer, to be hereafter fixed.

SEWAGE FARM.

We would recommend that the city purchase a tract of land, say, eight sections—320 acres—at some point favorably situated for the reception of sewage. This land should be purchased for \$100 per acre at most, and with sewage delivered on the ground (say at the rate of every 80 acres), would rent for \$20 per acre per year. This would pay a handsome interest on the investment, over and above expenses, and create a sinking fund to pay for the original cost within 10 years.

OUTFALL.

It is desirable that provision should be made for an outfall to the ocean, and after a full examination of the possible routes, we recommend that shown on the map, furnished by Mr. Eaton. We, however, recommend that plenty of discretion be allowed for the deviation of lines, so as to avoid any obstacle that may be encountered in construction. The general direction of this line is from the southwest corner of the city in a southeasterly course to the point near Hyde Park, on the Ballona Railroad; thence to a point on the shore line of the Pacific Ocean, about half way between Balboa Harbor and the old salt works at Redondo Beach. This line follows a generally even gradient to the base of the low hills near Hyde Park. Here it is necessary to construct a tunnel of about 11,000 feet. On leaving the west portal of the tunnel, the line crosses an elevated mesa to the base of a low sand ridge, which separates the ocean beach from the mesa. This will require a tunnel about 3,000 feet long. The total distance is about 14,000 feet, and the estimated cost \$351,000. We recommend that immediate steps be taken to procure the right of way. We condemn any proposition whereby the city would be bound to deliver the sewage to any individual or corporation for any great length of time, as we believe that the revenue can be derived from the sale of it in the future, should you decline purchasing a farm to use it on.

WATER SUPPLY.

Complied with the sewer system, the present water supply should be taken into consideration. First, it is very evident that in a short time, if not now, only a little area of land will be irrigated within the city boundary, consequently an enormous volume of water will be at your disposal for other purposes. In view of this, we would condemn any expenditure of money on the irrigation ditches by placing cement pipe in them. All that is a complete waste of money. The day of that irrigation has passed away. We would recommend that the pipes of sufficient capacity be placed along the general course of the high-level ditches. This will insure abundance of water for street sprinkling, fire purposes, and on the high levels furnishing ample domestic water, and finally reaching the sewers to furnish flushing arrangements, all of which is necessary.

The general plan of sewers as laid down on the accompanying map recommends reserving the right to the constructing engineer, subject to the consent of the Council, to change the final location of any part of a sewer as laid down on the map, when it is found on construction that a change to some other street would be for the benefit of the system.

The outfall should receive the final attention, and next the central district. The extension of the western interceptor as far as Ninth street would furnish an outlet for several years without extension north of that point. In the future, as the population increased in the northwest corner of the city, the western interceptor could be extended in accordance with the proposed plan. The southern interceptor, if extended along the southern line to Alameda street, would afford relief for several years to come, provided you adopt a temporary change for the sewerage of Boyle Heights and its adjacent territory, which we recommend as follows: Cut-off from Boyle Heights to connect with central interceptor at First street east of the river, the temporary expenditure for which will be \$67,500, which, added to \$450,000, the cost of the southern interceptor in the Boyle Heights district, makes \$517,500, and this sum will complete that portion for some years to come, and, in the future, as the population increases, the southern interceptor sewer can be extended in accordance with the proposed plan. The saving of present expenditure under the above arrangement for the southern interceptor would be about \$17,500. The saving of the present expenditure on the western interceptor at Boyle Heights at Ninth street is \$44,075, and it may be several years before the expenditure of these sums would be required.

SEWER SYSTEM.

We would recommend that the assessment for sewers be made \$2 per front foot, cost of construction.
